WIRELESS Connections – Wireless Will Only Be Available in <u>Limited Areas</u>	
<p>Due to external factors, including the nature of wireless internet and each computer’s operating system/configuration, InBusiness Connections only recommends wireless connections for casual Internet browsing and checking e-mails. If the reason for connecting to the Internet is for business related purposes, or event critical activities, for example - processing orders, processing credit card payments, web-based presentations, etc., InBusiness Connections strongly recommends a hardwire connection. A wireless connection may not provide the consistency necessary for conducting online business. InBusiness Connections does not accept responsibility for wireless performance.</p>	
<p>Business Class Wireless Login</p> <p>Bandwidth Allocation: 2Mb x 1Mb Peak <i>(on Shared Public Network)</i></p> <p>*Restricted Area Only</p>	<p>\$29/user <i>Discounts available for groups larger than 50</i></p> <p><u>Recommended Use</u> – Group services with light browsing of session activities such as basic web training.</p>
