Partaake Launches to Revolutionize Golf Event Management for Courses Exclusive Beta Program Now Open for Enrollment

Oceanside, CA — 1/1/25 — Managing golf events is time-consuming, with courses juggling inquiries, payments, and logistics—Partaake is here to change that. Officially launching today, Partaake offers golf courses tools to streamline event management, automate payments, and enhance revenue opportunities.

As part of its launch, Partaake is inviting public and semi-public golf courses to join an exclusive beta program that offers early access to its powerful platform with no commitment. Participating courses will get 3 months of free access to explore and refine the product while leveraging features like automated contracts, secure payment processing, and centralized inquiry management.

"Our mission is to empower golf courses with tools that make event management seamless and efficient," said Kat Slump, founder of Partaake and a former Division 1 golfer with a lifelong connection to the sport. "We're thrilled to open our beta program and collaborate with golf clubs to build a solution tailored to their needs."

Key Features of Partaake

- **Centralized Inquiry Management:** Organize and track all event inquiries across multiple courses in one place.
- **Automated Contracts and Payments:** Auto-generate contracts, process payments securely, and eliminate invoicing hassles.
- **Collaborative Proposals:** Customize proposals, add upsell options, and communicate directly with event organizers.
- **Data-Driven Insights:** Access robust analytics to understand booking trends, customer preferences, and revenue opportunities.

Golf courses often face challenges in managing event bookings, from handling numerous inquiries and coordinating logistics to processing payments and upselling services. Partaake addresses these challenges by providing a centralized platform that simplifies operations and enhances the guest experience.

Courses interested in the beta program can sign up today at **www.partaake.com** to explore how Partaake can transform their event management.

About Partaake

Partaake is the brainchild of Kat Slump, a seasoned software engineer and former Division 1 golfer with a passion for innovation and a deep connection to the sport. Combining domain expertise and technical skills, Kat is dedicated to modernizing the golf industry by providing tools that simplify event management and enhance revenue opportunities for golf courses. With experience building user-driven, high-quality products at companies like Phia, Pave, Humu, and Apple, Kat has a proven track record of creating thoughtful solutions that meet real-world needs.
