

Power Relief® Pain Cream TO EXHIBIT AT 2025 PGA SHOW IN ORLANDO, FL, JANUARY 21 - 24

Los Angeles, CA January 3, 2025 – Power Relief® Pain Cream announced today plans to exhibit at the 2025 PGA Show, January 21 - 24, at the Orange County Convention Center in Orlando, FL.

Power Relief® Pain Cream will be showcasing the new gold standard in pain relief to the golf world. This patented science based, all-natural product will be available to demo and try in booth 1980. Join your fellow golfers in the Power Relief® pain free movement. It's a game changer.

"We are pleased to join the PGA Show for the first time to debut the new gold standard in pain relief to golf's most influential retailers from around the world. We appreciate the opportunity to partner with the golf world in helping fellow golfers enjoy their time golfing pain free" – Felice Soule, Founder & CEO

The PGA Show, organized by Reed Exhibitions (RX) and the PGA of America, is the longest running and largest global gathering for the business of golf. PGA of America Golf Professionals and industry leaders form a dynamic international community to source and test the game's latest innovations, learn proven business solutions from industry experts, develop skills and connections to further their career, create additional value for facilities, build their individual business and drive continued growth of the sport. The PGA Show returns to Orlando, Jan. 21-24, 2025. The event remains a trade-only event, not open to the public. Visit PGAShow.com for event details and industry-only registration.

About Power Relief® Pain Cream

Power Relief® Pain Cream is the new gold standard in pain relief. The patented, science-based formula represents a groundbreaking advancement in pain relief, taking a natural backdoor approach to pain. The active ingredients have been shown to inhibit the production of pro inflammatory cytokines and enzymes, and contain various bioactive compounds with demonstrated anti-inflammatory effects. The active ingredients have been shown to influence the neurotransmitters involved in pain signaling pathways, block the afferent nerve signal, increase blood flow to the microcirculation, and reduce swelling.
